EU Workshop

Driving the circular transition on the EU: Recovering Value from Secondary Raw Materials

10:00 - 13:00 | Tuesday, 4 November

Camelia Room (1st Floor, Hall B6)

Four EU-funded projects — Wood2Wood, EcoRefibre, CIRCULess, and ReBoat — are joining forces to share cross-sector knowledge and showcase innovative technical and digital solutions that transform diverse waste streams — including wood waste from construction, demolition, and manufacturing, as well as plastic and textile waste from islands — into high-value products that support the European Union's circular economy goals. The event will conclude with a panel discussion followed by an interactive Q&A session, giving participants the chance to engage directly with project experts.

Coffee break

11:30 - 13:00

Interactive audience sessions

Panel discussion, Q&A and conclusion

ATIA ISWA Seminar

Innovative techniques for the valorisation of municipal waste

10:30 - 12:30 | Wednesday, 5 November

Ravezzi 2 room (South Hall)

Organised in close collaboration with ATIA ISWA Italia, this seminar will address the key challenges associated with managing residual waste generated from municipal waste sorting and collection systems. Discussions will take place within the broader framework of achieving the European Union's 2030 targets and advancing the ecological transition. The session will also highlight both established and emerging technologies that can support these goals. A roundtable discussion will bring together industry leaders and companies from the sector to share insights, compare experiences, and exchange best practices.

Session Chairs

Paola Muraro and Simona Gallo (ATIA ISWA ITALIA)

10:30 - 10:40

Opening by Gary Hanko

ISWA Hungarian National Member Representative

Welcome by Paolo Massarini

President ATIA ISWA Italia

10:40 - 10:50

Global Perspectives on Waste Management - Global Waste Management Outlook 2024 (GWMO)

Gary Hanko - ISWA Hungarian National Member

10:50 - 11:00

Community Planning in the Framework of Emerging Technologies

Claudia Mensi - FEAD

11:00 - 11:10

Residual Municipal Waste and Rejects from Separate Collection: Technologies for Achieving EU Targets

Francesco Lombardi - University of Rome "Tor Vergata"

11:10 - 11:20

Managing Future Waste from the Energy Transition: Recovery Technologies and Future Outlook for Italy (Waste and Technologies within the Energy Transition)

Federica Dei - MatER/Politecnico di Milano

11:20 - 11:30

Authorisation Procedures for Innovative Plants

Ferdinando Leone - Lazio Region

11:30 - 11:40

Waste Valorisation: Current Status of the End-of-Waste (EoW) Framework and Future Perspectives

Stefano Sassone - CISAMBIENTE

11:40 - 12:30

Roundtable Discussions | Enterprises and innovative technologies
